

All About Spring

Spring

Spring is one of the four seasons.

Months and Seasons

The spring months are March, April and May. Spring comes after the season of winter and before summer.

This wheel shows the different seasons and months of the year.

- Can you see the months of spring?
- What other seasons can you see?
- What season is your favourite?

Spring around the World

Spring falls in different months of the year, depending on where you are in the world.

In other countries, such as Australia, spring is in September, October and November!

They experience the seasons opposite to those in the United Kingdom.

When it is winter in the UK, it is summer in Australia.

When it is spring in the UK, it is autumn in Australia.

What Does Spring Look Like?

Spring Weather

Spring weather can be mixed.

What kinds of weather can we experience in spring?

Springtime is often sunny and rainy – you might see a rainbow in the sky!

Lighter Evenings

You might notice that the daytime gets longer and longer during the spring months. This means that the evenings are lighter - it may still be light when you go to bed!

Month	Sept	Oct	Nov	Dec	Jan	Feb	Mar	April	May	June	July	Aug
Hours of Sunlight	13	11	9	8	8	10	12	14	15	16	16	14

How many hours of sunlight will we have in March?

More Signs of Spring

You might notice new life springing up all around you!

snowdrop

bulbs shooting

daffodils

flower buds

blossom

crocus

More Signs of Spring

Spring is time for new life and growth. Lots of baby animals are born in the spring. You might spot bluebells and other flowers growing too. You might see some tadpoles in a pond – do you know what tadpoles grow into?

chicks

lambs

tadpoles

bluebells

bees
