

## Fill the Bucket Water Game

Provide your child with a cup or sponge and two buckets (one smaller, one larger). Place the smaller bucket a short distance from the larger bucket and fill the larger bucket with water. Have your child scoop water from the larger bucket and fill the smaller one. To make the game more challenging, put small holes in the cup or have your child dance as they move from bucket to bucket.

Add the language of quantity to enhance their learning. Such as :- Full, Empty, Half Full.

**Skills developed:** agility, balancing
