

# 'Hide and Seek/ I Spy Games'

Play a game of I spy around the house and encourage you child to go and find different objects. Try to take in turns so your children get to tell you what to find. Use language such as **"can you fine me the red car"** or **"can you find me something big and blue"**

## Talking About Shapes of Everyday Objects

*Go on a nature walk to your nearest park/garden. What natural objects can you find? Can you describe their shape? Group the curves objects and straight objects together.*

*Collect some objects you can find in your house e.g. cereal boxes, crisp tubes, oranges, DVD's etc. Sort them out into groups of the same shape. How many objects do you have with corners? How many round objects do you have?*
