

Making Nature paint Brush

What you need

- Sticks (1 for each paint brush)
- Lots of interesting pieces of nature
- Elastic bands (or string)

How to

Go on a walk and see what interesting things you can find. Look for different textures and patterns.

Attach the pieces of nature you collected to each stick using an elastic band (or a piece of string).

Children can then use the nature paint brushes to paint with looking at the different patterns each paint brush makes.
