

Nature Mobile

What you need?

- Sticks
- String or thread
- Collected nature items

Step 1

Head outside and collect some nature treasures from the forest floor, like sticks, leaves, bark, acorns or pinecones. Encourage children to choose things that they feel are special or beautiful.

Step 2

Choose a stick that is about the length of your arm. Tie a piece of string to the ends of the stick so that you can hang your mobile.

Step 3

Thread your string through the things you have collected and tie them so that they hang from the stick.

Remember there is no right or wrong way to make a nature craft, so have fun!
