

# Scent Jars

## What you need?

- Jars or bowls
- Orange, lemons, rosemary, thyme,

## How to?

Put different strong scented herbs and fruits such as lavender, lemon and basil, but you can use any scent of your choice into jars or bowls.

Get children familiar with the look and smell of the herbs along with the names.

Hand the jars to your child and let him sniff and guess what is inside, encourage children to talk about the sent and support them in using descriptive words such as sweet, strong.
