

## Making a Family Tree Using Natural Materials

Go for a family walk to the local park- Why not have a picnic whilst you are there?

Encourage your child to collect leaves and branches of different colours and sizes

When home assemble these on a large piece of paper to create your own family tree

When you are happy with how it looks stick the pieces down using glue

Once dry encourage your child to write key words such as- Family Tree, Mum, Dad, Brother, Sister

This is a great way to bond as a family and encourage fine motor skills!
