

Let's Drive!

Place a large piece of paper/disposable mat on the floor.

Draw out a road for your child to drive their car on the mat.

You can use chalk on the garden floor if you want to take the activity outside!

Why not add a roundabout, shops, house's etc to stop at?

You can number the stops and ask your child to follow the road in numerical order.

You can dip the wheels of the car into paint and let your child view the path he/she took when finished.
